

ColdFusion/Flex Developer/Architect

Are you looking to be part of a growing organization? Are you looking for a place to turn your ideas into solutions? Well look no further at MetroStar Systems Inc., a Microsoft Gold Certified Partner, we have what you are looking for. MetroStar offers a fast paced, friendly environment with incredible growth potential. We also offer the ability to work with cutting edge Microsoft technology, personalized career development plans and the opportunity to become the next Metro - "STAR".

Job Description:

The ColdFusion/Flex developer/architect serves as the primary individual for analysis, design, development, and deployment. This position requires senior-level knowledge of ColdFusion and Flex, as well as a working knowledge of related technologies such as: MySQL, AJAX, CSS, JavaScript, and HTML/DHTML. The ColdFusion/Flex developer/architect will demonstrate the ability to lead a project across all aspects of the systems development lifecycle. This individual must be highly motivated in this area of computing in order to stay current with present trends and activities. The incumbent will function well as a leader and team member for assigned projects. Related experience in the Health Care industry is a plus.

Required Skills:

- 5+ years developing web applications
- 4+ years experience with Cold Fusion applications
- 3+ years of experience working with Flex.
- Solid experience working with AJAX, CSS, JavaScript, and HTML/DHTML
- Database development and SQL query, particularly, intermediate-level expertise in stored procedures
- Knowledge and experience across the full systems development lifecycle.
- Experience designing and coding user interfaces using GUI frameworks
- Strong interpersonal skills required to communicate with clients in order to understand their needs and then to transform conversations to action as it relates to the Web applications development
- Strong documentation and debugging/QA skills
- Participates in planning and review of new releases and feature sets
- Responsible for day-to-day application production support
