

## Senior Web Designer

Are you looking to be part of a growing organization? Are you looking for a place to turn your ideas into solutions? Well look no further, at MetroStar Systems (MetroStar), a Microsoft Gold Certified Partner; we have what you are looking for, a fast paced, friendly environment with incredible growth potential. We offer the ability to work with cutting edge Microsoft technology, personalized career development plans and the opportunity to become the next Metro"STAR".

### Job Description:

Candidates should have at least 5+ years experience in a UI design position creating wireframes, detailed specifications, and visual mockups. To apply please email your resume, along with a link to your portfolio or samples of your work.

### Responsibilities:

- Create mockups of UI designs and page components that optimize different site objectives.
- Generate graphic designs for banner ads, landing pages, and other modules.
- Design all graphical assets needed to develop a web interface including icons, controls, and layout elements.
- Build table-less websites.
- Have a discerning design eye and an aptitude for closing the gap between graphic design and web functionality.
- Produce a track record of success and execute project plans smoothly and flawlessly.
- Strive to exceed clients' expectations.
- Strong commitment to completing projects on time and on budget.
- Think through every aspect of user experience, putting users' needs and expectations first.
- Participate in design, standards and code reviews.
- Genuine interest in the work of our clients -- their mission, goals, programs, services and audiences.
- Ability to work collaboratively with colleagues and staff to create a result-driven, team oriented environment.

### Job Requirements:

- US citizens and Green Card Holders and those authorized to work in the US are encouraged to apply as we are unable to sponsor H1b candidates at this time.
- 5-7 years experience designing and implementing user interfaces for websites.
- Proficient with Photoshop, Illustrator and other design software
- Strong visual design skills including mastery of typography, layout, and color
- Ability to translate functional requirements into design
